They serve the purpose of providing suitable accommodation mainly to VSE students, and possibly also to students of other schools in case of free capacities, under the schedule and criteria approved by the VSE management. A director of the Department for the Administration of Facilities (hereinafter “SUZ”) is responsible for the operation and activities of the dormitories within the scope determined by the statutes of VSE. Duties of SUZ as an accommodation provider are determined by its status.

2. These General Terms and Conditions of Accommodation regulate the relations between natural persons accommodated in the accommodation facilities of the VSE dormitories (students and other persons, hereinafter just “Accommodated Persons”) and the Accommodation Provider, the University of Economics in Prague, namely its Department for the Administration of Facilities (hereinafter “SUZ or DAF” or “Accommodation Provider”).

3. These General Terms and Conditions applicable to all accommodated VSE students as well as to other Accommodated Persons constitute an Annex to a Contract on Accommodation. Other rights and duties of the Accommodated Persons and the Accommodation Provider, as well as certain powers and obligations of students’ self-governing bodies, are determined by “Dormitory Rules”.

Article II.
ESTABLISHMENT OF CONTRACTUAL RELATION FOR ACCOMMODATION

1. Procedure for entering into the Contract on Accommodation

Accommodation in dormitories is provided on the grounds of an application submitted via website http://iskam-web.vse.cz/. The terms for submitting the applications are determined in the Timetable and Criteria for Submission of Applications for Accommodation. Upon processing and assessment of individual applications, SUZ shall decide (following the mentioned criteria and timetable) on allocation of a bed in a particular dormitory and a room via electronic decision, and based on that decision SUZ shall enter into the Contract on Accommodation with the prospective Accommodated Person.

2. Contract on Accommodation

i. The accommodation contract to which these GTC apply is created on the day of booking confirmation (ISKAM: satisfaction of the request for accommodation), which actually concludes the accommodation contract. However, the actual drawing up of the contract between the Accommodation Provider and the Accommodation Provider will take place before the date of arrival at the accommodation (the date is fixed in waiting list). By the Contract, the Accommodation Provider undertakes to provide the Accommodation Provider with temporary accommodation - an accommodation place (hereinafter also referred to as a “bed”) in the VSE dormitory buildings, for the period agreed for this contract. Specific accommodation place, i.e. the name of the dormitory and the room number are given in the Decision on the allocation of accommodation space, which is issued by DAF VSE.
ii. The Contract is signed electronically marking a corresponding field in a check-box of the ISKAM accommodation system on iskam-web.vse.cz website; in really exceptional cases through signing a written contract in the office of the dormitory manager. The contract must be signed electronically before the scheduled start of the accommodation, which the ISKAM system will allow 7 days before the start. It is not possible to stay without a signed contract. By signing the accommodation contract, the Accommodated person agrees to the delivery of documents related to the accommodation electronically to his e-mail address specified in the accommodation contract. The document is considered delivered after 10 calendar days after its sending.

iii. Neither VSE students nor other natural persons have a vested right to enter into the Contract. The Contract on Accommodation includes mandatory elements as identification of the Contracting parties including an e-mail address which the Accommodated Person determined to be used for electronic communication with the Accommodation Provider, subject-matter of the Contract and duration of the Contract on Accommodation. The level of Accommodation Fee – price for accommodation is determined in the Contract by a reference to the Accommodation Price List applicable for the respective period.

3. Subject-matter and Scope of Accommodation

The Accommodated Person is entitled to use allocated bed, i.e. a room provided to him/her for accommodation, including respective furnishings and utilities (WC, bathroom, entry hall with kitchen), as well as shared facilities of the dormitory as well as services related to accommodation. The Accommodation provider will hand over the room with accessories, including inventory, in a condition suitable for proper use. The data are available to students via a mobile application at https://kolejjarov2.vse.cz/english/informations/students-accommodation/remote-system-to-control-the-costs-of-housing/. So, there is a possibility to have a continuous overview of the own consumption of energies. There are error notices set up in the system to record excessive consumption caused by a failure or uneconomical behaviour of the Accommodated Persons. Based on the notice SÚZ VSE can react immediately to respective failures or breakdowns. Thanks to the newly implemented system, each Accommodated Person can have a precise overview of his/her consumption and related costs of living. After the end of each month, the Accommodated Person will be charged the amount in CZK corresponding to his/her consumption for the previous month. If the accommodation in a particular room is terminated in the course of a month, the billing shall be done by the last day of the stay. So, the students are charged only with the consumption of energy in the particular unit (room), and not with standing payments or payments for reserved output etc.

Prices of cold and hot water, heat and electricity are shown in the price list published on Jarov II. dormitory website (https://kolejjarov2.vse.cz/english/informations/students-accommodation/remote-system-to-control-the-costs-of-housing/), and are fixed.
